

Eyebrow Aftercare

1. Pat eyebrows lightly a few times today with a clean tissue each time to absorb lymph fluid.
2. Starting on day 2 and until day 10, once in the AM and PM wash eyebrows lightly with the provided cleanser with a clean q-tip on each brow.
3. Gently pat dry with a clean tissue on each eye.
4. Apply a rice grain size amount of the provided A&D ointment with a clean q-tip to each eyebrow.
5. When showering, apply the provided petroleum jelly to each eyebrow to protect them from getting too wet. Gently wipe away when done showering.

IMPORTANT:

- **AVOID** Makeup, Retin-A, & all acids on procedure area until healed.
- **AVOID** Touching, sunscreen, tanning beds, direct sunlight. Wear a hat, sunscreen after complete healing takes place.
- **AVOID** Swimming pools, oceans, hot tubs, saunas, and hot steamy showers. Shower with your back to the head.
- **AVOID** Dirt (gardening, etc), extreme perspiration (the GYM) for the first week to prevent possible infection.
- **DON'T BE ALARMED** if pigment comes off on q-tip when applying aftercare.
- **DON'T BE ALARMED by fading after first application.** Final color cannot be judged until 2 weeks post procedure.
- **NEVER** use topical antibiotics unless given to you at the time of your procedure, with specific instructions.
- **IF** planning a chemical peel, MRI or other medical procedure, please notify the technician that you have a cosmetic tattoo.
- **IF** planning to have laser hair removal on the upper lip or a Photo Facial using IPL, notify the laser technician of your cosmetic tattoo. Both ablative and non ablative lasers can cause the pigment to turn black.
- **IF** planning on donating blood, notify the blood bank of the date of your cosmetic tattoo procedure.
